Since we are paying for the right to listen to XM radio and XM radio doesn't depend on advertizers or other means of money other than what the listeners pay, what gives anyone other than the listeners the right to have a say in what is broadcasted. We are truck drivers and we are out there on the road most of our lives. Knowing what the weather is going to do and how the traffic is moving in the large cities is extreamly inportant to all drivers. There two things can make a big differance in our pay checks. I wonder how these people would feel if it was their pay checks that could be affected by this information.

But then again it could; the more they try to regulate the truckers insted of the companys that run the truck, the more you slow down the deliveries of the goods that they need to run their households and lives. store inventory won't be there to buy prices go up. But they don't care they will just vote to raise their pay checks and the working public suffers more. The ones that pay them
